

PRESS RELEASE

# EUROGERM TOGETHER WE ACHIEVE

The 02nd of January, 2009

## Ingredients & Solutions for the wheat, flour and bread sector

EUROGERM is specialized in research, development, blending and marketing of **flour improvement ingredients**, **bread improvers** and specialty bread **premixes** dedicated to producers and final users of flour or technical cereals: milling industry, bakery, biscuits, pasta plants, dietetic food...

To address ever more demanding consumers, eating styles that are in a state of upheaval and severe fluctuations in the price of raw materials, players in the milling, plant baking and food and agriculture industries can depend on a partner involved in their conquest of markets: **Eurogerm, a specialist in cereal ingredients and complete added-value solutions for the wheat, flour, bread and morning goods sector.**

One of the keys to Eurogerm's success lies in its speciality-centred organisation: concept unit, physical and chemical laboratory, test bakery, sensory analysis laboratory, research and development, technical-sales support. Eurogerm products are custom made and specifically engineered. Quality, security and traceability are key-points (ISO 9001); food safety: a daily priority for Eurogerm which is ISO 9001 and **ISO 22000 certified** (Saint-Apollinaire plant).

Apart from its creativity and products, Eurogerm provides its customers with a wide range of services, supporting them at every stage and in every sphere of their development: Chronotec® for wheat and flour analysis, and Qualitec®, a diagnostic tool for customers, which draws up sensory profiles of finished products.

Since April 2007, EUROGERM has been quoted to Euronext Alternext market (Paris).

EUROGERM ingredients are:

- Functional: technical Glutens, enzymes... To improve performance of flours and finished products,
- Sensory: toasted cereal flour, wheat germ... To optimize taste and color,
- Nutritional: fibre, vitamins, minerals
